STUDENTS' MOTIVATION CAN BE RAISED VIA FACILITIES AND INFRASTRUCTURE

In learning activities, motivation is the power that keeps learning going and gives learning activities purpose so that the intended goals can be achieved.

In particular, internal and external influences both have an impact on motivation and learning results. The provision of suitable school infrastructure and amenities is one of the external elements, and a sports field is one of the infrastructures required by any educational unit.

It is thought that having a sports field available will help students and teachers participate in teaching and learning activities more effectively and with greater motivation.

CSR PT.JGC INDONESIA BECOMES SPONSOR

From the perspective of the JGC Indonesia CSR Team, school is where students spend the majority of their time. Having sufficient sports facilities in schools is extremely beneficial for kids' participation in sports,

The Principal of SDN Cilandak Barat 01 , Mrs. Siti Irawati expressed her gratitude to CSR JGC Indonesia for initiative to improve sports facilities at SDN Cilandak Barat 01 and provide additional sport equipment for sports activities such as basketball, football, badminton racket and shuttlecock.

"We hope that support from JGC Indonesia's CSR to SDN Cilandak Barat 01 can be used properly and will certainly deliver progress for the nation's children and support the creation of a healthy and strong generation,"
